ON STAGE

The stage is my happy place.

I bring 20+ years of enterprise tech sales and leadership to the stage, as founder of Moreequality® and TechTogether.AI®. My talks bridge generations, technology and human behaviour, with storytelling, a bit of nostalgia and live AI tools like ChatGPT, Copilot and Gemini.

Expect magnetic energy, a safe space to laugh and think, and takeaways your people can use the next morning.

POSTALGIA

We still want to bake grandmother's apple pie. But in a modern, WiFi connected oven.

SPEAKING TOPICS

01 **Nostalgia & Technology**

Bridging generations and innovation. Postalgia: creating shared memories of the future through technology and human connection.

02 **How to Be F**king Amazing**

Confidence, energy and personal growth. Flip fear into excitement and use that energy to take action.

03 **Leadership & Personal Branding**

Leading and standing out in the digital era, with a personal brand that opens doors at every level.

04 **Resilience & Innovation**

Thriving in a disruptive market: how teams adapt fast, stay human and keep growing.

05 **AI Adoption Across Generations**

Five generations working side by side in a world shaped by AI, and how to turn AI, IoT and new tech into growth.

FORMATS

Keynote, live or online | **Panelist** | **Moderator & Host** | **Workshops & Mentorship**
